

February 23, 2021

Hello Auburn Hill Residents, Families and Team members!

It's time for another update on our status here at Auburn Hill! Our surveillance testing went well last week, we currently have no additional positive cases. After review with the Virginia Department of Health (VDH), we have decided to continue surveillance testing of a combined percentage of residents and team members.

Starting next week on March 1<sup>st</sup>, we will begin scheduled indoor visitations. These visits will take place in the private dining room with precautions in place. Additional communication with the details of these visits will be sent out later this week. In addition to this, we will be increasing scheduled activities for our residents next week as well.

We would like to proceed with salon services. We are anticipating a start date of March 3<sup>rd</sup>. Education will be provided for the salon personnel about COVID precautions. Additional communication with further detail will be sent out later this week.

Just a reminder that our 3<sup>rd</sup> and final vaccination clinic is Wednesday 2/24 at 10am. This clinic is for those who need their second Pfizer dose. They are able to administer a first-time dose, however this is not recommended unless you have secured a location for the second dose of the vaccine. We are looking at options through VDH about possible additional clinics, and our pharmacy partner. At this time, we do not have a clear answer about providing vaccinations moving forward but will send communication out as things develop.

I want to thank all of you again for your support, patience, and understanding. We are excited to be able to "reopen" a little more with the hope that this forward movement will continue.

As always, if you have any questions or concerns please reach out to us.

Thanks

Kelly Carter

Executive Director
