

AUBURN HILL  
SENIOR LIVING

May 11, 2022

Dear Residents, Families and Team Members of Auburn Hill Senior Living,

We have completed COVID testing for Assisted Living residents. I am happy to inform you that we have no positive results. We had one additional team member report symptoms and positive results and they remain home on isolation. We continue to screen residents daily for signs and symptoms of COVID.

All visitors and employees are required to complete the COVID screening at the front desk. Masks must be worn in the community. Please do not visit if you are experiencing any signs or symptoms of COVID.

On Monday May 23<sup>rd</sup> at 10:00am, the health department will be here to administer the second COVID booster. For those who wish to receive their first booster during the clinic, this is a possibility as well. Please let us know if you are interested in receiving this, and we will consult with your physician. We will send out additional communication if there are any consents or paperwork required prior to the clinic date.

As always, thank you for all of your support and being a part of the Auburn Hill family. Please do not hesitate to contact us with any questions.

Thank You,  
Kelly Carter, BSW, LNHA  
Executive Director, Auburn Hill
