

January 25, 2021

Hello Auburn Hill residents, families, and team!

I wanted to update you on our COVID-19 status here at Auburn Hill. As you know, we had Point Prevalence Survey (PPS) testing done last week for residents and team members. I am happy to tell you that as of now, we do not have any additional residents with positive results. We have one additional team member who tested positive. We will be working with Virginia Department of Health (VDH) to determine if additional testing will be needed after this week.

Unfortunately, we also have sad news. While we cannot confirm the specific cause of death due to other active medical conditions, another one of our residents who previously had positive results and was in the hospital, has passed away. Please keep the family in your thoughts and prayers during this time.

We are working with VDH to get the next round of PPS testing scheduled. We are planning on this Wednesday or Thursday, depending on their availability.

We will be working on getting new consents signed this week for our 2<sup>nd</sup> vaccination clinic on February 3<sup>rd</sup>. For those of you who have already sent in signed consents, thank you! Our goal is to try and have all of them together by Friday so we are prepared for next week.

We appreciate all of our residents, families, and team members during this ongoing process and pandemic! You all have been so amazing and the support makes a difference. Hang in there, I hope everyone stays healthy and safe! We will send out more communication as things change.

Thank You,

Kelly Carter, Executive Director
